### NONNA'S STARTS A REVOLUTION IN SHEFFIELD

Great things come in small packages and Nonna's new range of imported teas are set to take Sheffield and the UK by storm. Each tea comes in a single serve box with an infuser bag tucked away inside made from Japanese silk and incredibly full flavoursome in taste. Currently, Revolution teas are hard found outside of America, but Nonna's perseverance and eye for quality has seen a near full product import into Sheffield.

Daniel Jackson, General Manager of Nonna's said: "(the owner) Gian Bohan and I first tried these teas in Holland and were astounded by the taste and agreed there and then to get them in, we are aware of how important tea is becoming and although we see ourselves as a big Italian *caffè*, we want to give our customers the best possible choice of tea also. Six weeks of researching, telephone calls to the USA and Holland and we finally got them! The emphasis is on health and quality and they are full of antioxidants and boast *three* caffeine-free options."
