What a great year... not only being reviewed by our favourite wine magazine *Decanter* and also we received a “notable wine list” award from The AA guide 2008 and being named one of the top restaurants in the country from The Observer Food Monthly.

This year with our wine menu, we have made a very bold and difficult move, showcasing our Italian wines by “style” and region, making it easier for you to choose. With huge increases in the euro and recent tax increases on wines, we have found it difficult to keep wines at the same price; we have tried to absorb the costs where possible.

Our wines by the glass offering has increased giving you a wider choice including some new “oddity” grapes like the *Pecorino* grape. If you feel like a range of wines for your meal, go no further than the wine flights (page 4), a sample of 3 of our wines which are connected through geographic, varietal or colour.

If you are not sure which wine to enjoy with your meal, all our wine waiters attend training and tasting courses and are very knowledgeable about these wines. Put yourself in the wine waiter’s hands and let them pick something special for you.
